PROFESSIONAL PROFILE

Full-stack developer and digital entrepreneur with over 12 years of experience in web development, project management and corporate identity design. Specialist in the integration of Artificial Intelligence into digital solutions — from process automation with LLMs to the development of generative AI tools for businesses. Combines solid technical skills with a strategic vision for branding, design and cybersecurity. In recent years, has focused on the practical application of AI in real-world contexts, delivering projects that transform sectors of the national economy.

PROFESSIONAL EXPERIENCE

GRUPO ÉRRE *Portugal*

Lead Developer – AI R&D *2025 — Present*

Team leader of the software development team (Érre @Boost), also acting as Prompt Engineer and Agent Creator to optimise a range of internal company areas, as well as to automate and implement AI-based solutions tailored to various sectors of the national economy.

- **Technical Leadership:** Implementation of agile methodologies and SOLID practices across multidisciplinary teams.
- **Digital Consulting:** Strategic guidance for AI-driven digital transformation in SMEs.
- **Full-Stack Development:** Creation of complex web applications with high-performance LLM integration.
- **Prompt Engineering:** Design and development of specific, structured prompts for software tailored to client needs.
- **Agent Creation:** Development of agents and custom skills for Claude, Claude Code and other AI environments.

Highlighted Projects:

- **Grip:** Rotax, SRO, On Demand.
- **FAO:** Framework for Agile Operations.
- **Veganalisis:** AI-based vegetation analyser.
- **Prompt-Maker:** Prompt builder and optimiser powered by generative AI.

Technologies: React, Node.js, Python, JavaScript, Git, MongoDB, SQL, Pinecone

DIGITALWISH *Portugal*

Founder & Senior Developer *2017 — 2025*

Founder and lead developer of a digital consulting and development company, leading end-to-end projects for clients across a wide range of sectors:

- **Technical Leadership:** Implementation of agile methodologies and SOLID practices across multidisciplinary teams.
- **Digital Consulting:** Strategic guidance on digital transformation and security for traditional businesses.
- **Full-Stack Development:** Creation of complex web applications and high-performance e-commerce platforms.

Highlighted Projects:

- **Maldes:** Full corporate identity development and responsive landing page with CRM integration
- **Ourivesaria Façanha:** Complete e-commerce platform with integrated payment system and inventory management
- **Pontomoco:** Corporate identity, strategic branding and interactive digital platform
- **RJ Paris:** Full rebranding, development of two websites and digital presence strategy

Technologies: Vue.js, React, Node.js, Python, JavaScript, Git, HTML/CSS, MySQL, MongoDB

NETIC ***SPAIN***

CTO — Board Member *2023 — 2024*

Specialised development and technical consulting services:

- Management and mentoring of working teams.
- Implementation of agile methodologies and SOLID practices across multidisciplinary teams.
- Cybersecurity consulting (penetration testing) for several corporate clients in Spain.

Skills: Corporate Branding · IT Consulting · Graphic Design · Brand Identity · Cybersecurity

FB Sá ***BRAZIL***

Developer — Consultant (part-time) *2015 — 2020*

Specialised development and technical consulting services:

- Implementation and development of proprietary software.
- Cybersecurity consulting (penetration testing) and development of secure systems.

Skills: Corporate Branding · IT Consulting · Graphic Design · Brand Identity · Cybersecurity

PRIVATE TUTOR *Portugal*

Tutor *2010 — Present*

Tutoring in C/C++ (imperative), Java and Python (OOP), Haskell (functional), Vue.js/React, Calculus, Linux and Mathematics.

OPEN SOURCE PROJECTS & CONTRIBUTIONS

- **Automation Scripts:** Collection of scripts for task automation in Linux and ARM environments (Odroid and Raspberry Pi SBCs)
- **Web Components Library:** Library of reusable components for front-end development
- **Python Utility Tools:** Toolset for data processing and process automation
- **Education:** Several teaching repositories covering a wide range of programming languages

EDUCATION

UNIVERSITY OF MINHO

Braga, Portugal

Integrated Master's in Computer Engineering (incomplete) *2002 — 2010*

CERTIFICATIONS & CONTINUOUS TRAINING

- **Web Development Certification** — JavaScript / Vue.js / React
- **Cisco Cybersecurity Certifications** — Cybersecurity
- **AI Certifications** — Several Google and Microsoft certifications on AI
- **Specialised Courses:** Vue.js, React, Linux Administration, Cloud Computing, Docker, Kubernetes, UI/UX Design

TECHNICAL SKILLS

Development	DevOps & Infrastructure	Design & Branding	Artificial Intelligence
JavaScript/Vue.js/React	Git/GitHub	Graphic Design	Prompt Engineering
Python	Linux	Visual Identity	N8N — Maker
PHP	Docker	Strategic Branding	LangChain
Java	GitHub Actions	UI/UX Design	
C/C++	Google Cloud	Affinity Designer & Photo	
Node.js	Nginx/Apache	Adobe Creative Suite	
HTML5/CSS3/SASS	Logging	Wireframing/Prototyping	
SQL	Security & Compliance	Responsive Design
